Ukrainian victory can deal a decisive blow to Russian imperialism

Danylo Lubkivsky – Atlantic Council: 16 November 2022

Almost nine months since his tanks first rolled across the border, it is now clear that Russian President Vladimir Putin's invasion of Ukraine is an old-fashioned colonial war complete with illegal annexations and the denial of Ukraine's right to exist. Until this resurgent brand of Russian imperialism is decisively defeated, it will remain one of the greatest threats to global security.
