

Framework for Cooperation

Building Whole-of-Society Resilience WORKSHOP

12 – 15 JUNE 2023 | GARMISCH-PARTENKIRCHEN, GERMANY

Way Ahead

1. Form a “Community of Interest” (COI) of participants via a Signal group
2. From the COI, organic subgroups will convene to address specific, prioritized resilience topics, including all relevant stakeholders (civil-society, industry, NGOs)
3. COI members will address the prioritized topics through a mix of existing and/or new workshops, courses, papers, training and education, exercises, and diplomatic engagements. These activities can be both internal and external
4. Outputs from these activities are intended to develop a “playbook” or shared guidelines for like-minded allies and partners in responding to malign influence
5. The COI will also continue to share information toward the development of a common understanding of the interregional threat environment
